Dear Dan,

I wanted to thank you for the great job you did on our video program, "Don't Borrow Trouble" which we're using as part of our Don't Borrow Trouble campaign to warn people of the dangers of Predatory Lenders. Working with you was an enjoyable experience and we appreciate how responsive you were to our requests for changes during the editing process.

I especially want to thank you for going above and beyond what was expected and producing a :15 PSA for us to send to the networks in addition to the long form program you were hired to produce.

I hope other organizations have the opportunity to use your services so they too can benefit from your talent, dedication and good work ethic.

Sincerely,

Rosemarie Ibañez
